

INVITATION

Syngenta Australia would like to invite you to a Fungicide Resistance Workshop with its Head Global Product Biology Fungicides.

Location:

Date:

Guest Speaker: Dr Andy Leadbeater, Head Global Product Biology Fungicides, Syngenta

Hear Andy talk about the implications of fungicide resistance development on productive operations and Syngenta's innovative technology that will help bridge the gap.

Andy will discuss the growing fungicide resistance developing using the UK as an example and give an overview of Syngenta's global R&D pipeline to combat both disease and to provide additional tools to prevent fungicide resistance.
