

Expression of Interest “Title of the Opportunity/Project”

Objective

Replace the text below to define the overall objective of the activities – “the big picture”

What is the overall purpose of the project/idea?

How will the outcomes of the project benefit WA grower groups and their farming systems?

Aims

Insert a clear aim so the grower group understands what you or your team are trying to achieve with them.

List the aims of what the project hopes to achieve at the grower group level. Additional aims??

Provider resources

Summarise what resources your organisation or company will provide to the group towards the activity.

What input will your organisation put towards the setting up of the project/trial?

How many personnel will be involved?

What activities will be put in place to ensure the project/trial goes according to plan?

Where can similar projects be found?

What is the proposed design, sampling resources?

Can you provide a guest speaker at a group field day?

Grower Group Resources

Insert what inputs you are hoping the local farmer group can put towards the activity.

What are the minimum expectations required of the group for this offer?

What is required in terms of site/s or number?

Duration of the project/trial?

What bio-security issues does the group need to be aware of?

What area, size, soil type characteristics, farming systems?

Field day/workshop requirements?

Historic data on the problem paddock required? Eg. climatic records?
