

Using eID for Beef Management

UNIT CODE: AHCWRK502A

From Diploma of Agriculture (AHC50110)

These workshops will be delivered by Alison McIntosh. Alison has developed the workshop in cooperation with MLA and gotafe (Victoria). More on Alison can be found by visiting her website www.ajmlivestocksolutions.com.au

Course Overview

This workshop will provide you (beef producers) with the skills and knowledge needed to be able to efficiently and successfully transition your herd record keeping system to a system of electronic data capture and management. As a result you too can start to enjoy some of these benefits, which producers already using eID data capture systems are reporting:

- Reduced 'guess work' – accuracy of records!!
- Increased confidence with cattle assessment and marketing (meeting market specs)
- Efficiency in business decision making
- Huge labour and time saving
- Better able to set targets and do benchmarking

Course Details
