

2040 Farming – The Next Generation

Bankwest are pleased to present 2040 Farming – The Next Generation.

Join us in Moora for a day of guest speakers focusing on topics that are important to the future generations of farming, including succession planning, mental health, agronomy, technology and more.

Guest speaker Katrina Sasse was recently awarded a 2017 Nuffield Australia Farming Scholarship and has elected to research “the way forward for daughters” and investigate strategies to encourage young women, particularly farmer’s daughters, to play an integral role in the continuity of family farm businesses, enabling them to survive and help rural communities thrive.

Alan Langford, Chief Economist - Bankwest will also be joining us to provide an update on the current economic environment, industry and outlook for rural areas.

Richard Bator, State Manager Rural and Regional - Bankwest and the Moora team hope that you can join us for this informative event.

**Only registered attendees will be guaranteed a space at this event*
