

Pollination & Production

Find out how forage shrubs and pollination in canola can increase production

WHEN: Tuesday 16 April 2019

WHERE: Woodanilling Pavilion

TIME: 1pm - 3.45pm **COST:** Free

RSVP: wendy.wilkins@swccnrm.org.au

M. 0448 939 307

WORKSHOP PRESENTERS

Dr Dean Revell outlines the benefits, costs and risks associated with forage shrubs and varieties to suit your soils and climate.

John Karasinski speaks on the economic importance of Honey Bees for the WA canola industry.

Dr Mike Christensen reveals the benefits of insects and other pollinators for canola production.

This project is supported by the South West Catchments Council, through funding from the Australian Government's National Landcare Program.
