

# HARVESTER SET-UP WORKSHOP FOR THE COLOUR-BLIND

This hands-on workshop run by Martin Reichelt will work from front to back of the harvester to help growers improve their harvesting productivity and profitability.

**Date:** Tuesday 10th September, 2019

**Location:** 31 Hewett Rd - John Hewitt's

**Time:** 9.00am-5.00pm

**Cost:** \$125 (excluding GST)

The workshop will cover an overview of what the steps are to improve performance from front to back and focus on:

- Reducing header front loss
- Improving crop flow through the feeder house
- Putting Dollars in your pocket through proper loss measurement and calibration

From the workshop attendees will be better armed to set-up their harvester to balance minimising harvester losses with efficient and timely completion of their harvest program. No matter the colour of their harvester.
