

THE ANNUAL BOODJA SOIL SCIENCE LECTURE 5.30–6.30pm Thursday 5 December 2019

Soil Science Australia (WA Branch) invites you to the annual Boodja Soil Science Lecture (during the WA Soils Conference). The lecture is free and open to all.

Boodja is a Noongar word for “land” and the lecture series acknowledges the important role of aboriginal understanding in the responsible management of our soil and land.

On World Soil Day 2019, the WA Branch of Soil Science Australia is honoured to receive our annual lecture from **Andrew 'Nic' Watson**.

Andrew is the Commissioner for Soil and Land Conservation in Western Australia and has excelled over a career spanning 45 plus years dedicated to the protection of Western Australia's land and soil resources.

Please join us to hear Andrew recount stories from his early career in Northern Libya through to the challenges of Soil Conservation in Western Australia. Even Andrew's passion about Series II and III Land Rovers might slide into the presentation! We will also receive a brief update on WA Branch events from branch President, Henry Smolinski.

Location: Wesfarmers Lecture Theatre.

5:30pm – University of WA

Hackett Drive, Crawley WA

To reserve your seat:
